

Dear Fellow workers,

Greetings in Jesus' wonderful name. I pray this report finds each and everyone at West End in the best of health, serving the Lord.

Must apologise for the delay. I have posted some pictures from Ginger Village at [MSN users.com/my web documents](http://MSNusers.com/mywebdocuments). Hope you will be able to view them.

**The Congregations:**

We have started our planning sessions for both Belmont & Richland Park for the year 2005. Yours truly has chosen to leave the bulk of the planning to the congregations. Over the few years I have delegated responsibilities and they somehow seem to fall back into my lap.

It is a norm in the Caribbean for the preacher to take full control of the congregation and do things the way he sees fit: Happy to say we have chosen another route for Belmont. Everyone will be bringing their ideas and suggestions to the table where we will brainstorm and come up with ideal plan for the year. This way everyone have a responsibility to follow through on their idea(s) and we all will be working together to enrich the borders of the Lord's church.

This Sunday the Belmont church will be visiting Richland Park, so we have decided to have one service with all 3 congregations. On the 19th. of December both Belmont & Richland Park will be journeying to Bequia to worship with the brethren. This will be our final visitation for the year 2004.

**Work in the Fields:**

As you may or may not know, around this time of the year folks in the Caribbean put the studying of Christ's word on hold. They do this to get their literal houses in order to celebrate His birth. One member has suggest we go back to our In-house visitation program.

Ginger Village was our main focus as we continued to study with those students who were impressed with the crusade and want to know more. This is going very well. One student in particular, **Inde** - an Adventist who challenged Br. Jeremie has seen the truth for her and has renounced the Adventist teachings. Pray for more like her.

The tremendous task of reaching my family members and relatives continues. Sad to say many of them do not see fulltime preaching as a "real job". Its strange, but they will listen to me if I had a "regular" 8-4 job with shirt and tie.

**Financial Report:**

As mentioned earlier we have increased the transportation allowance by \$50.EC to \$150./month due to increase in gas price and work.

We are still awaiting the surveyor and his findings before we can proceed any further with our building project.

**Rohan Hector:**

Happy to report all is well with family. Sharlene is due by the 18th. Dec.

Yesterday was her last day at work, she is now home on 3 months maternity leave.

Her mother will be here from Trinidad on the 11th - 22nd. to give us a helping hand - thanks be to God.

Again I will like to thank all at West End for your continued encouragement, support and prayer on our behalf.

Yours in Christ

Rohan Hector
